

Claverton Court, Chester

An award winning sheltered housing scheme in Chester. Sited in a mature residential Conservation Area it uses simple forms and natural appropriate materials to provide an interesting and harmonious environment.

Key facts:

Location: Chester

Client: The Architects' Benevolent Society

Sector: Residential

Status: Complete

Area: 14 1 & 2 bedroom flats & various communal areas

An award winning sheltered housing scheme in Chester, designed by architects for architects and their dependants, in a mature residential Conservation Area. Using simple forms and natural materials to provide an interesting and harmonious environment.

Particular care has been taken to exploit the internal and external view both towards the private gardens and outwards to Victoria Crescent, stimulating activity and social contact with other residents and the outside world.

The building provides 14 1 and 2 bedroom apartments with additional guest accommodation and ancillary service accommodation. All dwellings and communal spaces are fully accessible.

We were selected to deliver this project after

winning a national RIBA design competition. The scheme later went on to win an RIBA Housing Design Award.
