

Case study

Gateway Building, Liverpool Hope University

Gateway Building, Liverpool Hope University

Key facts:

Location: Liverpool

Client: Liverpool Hope University

Sector: Education

Status: Complete

Area: 1,750 sqm

This major new frontage building is the first point of contact for Liverpool Hope University and provides a one-stop-shop for student services.

Providing accommodation for two Centres of Excellence in Teaching and Learning, it helps to unify two formerly separate colleges into a single campus.

Set within a generous green forecourt, the development enhances the visual amenity of the public realm, benefiting the local community as well as the University.
